

# megamount 303/303 Racing SEMI-AUTOMATIC

" The heavyweight champion of swing arm tyre changers!"

a heavy duty, semi-automatic tyre changer boasting a unique specification for what would normally be regarded as an entry level model.

## MAIN FEATURES

- Side swinging mounting arm.
- Inflating pressure limiting device.
- Smart blade bead breaker, also for the stiffest tyres.
- Mounting column with 36mm diameter.
- Press-Help Arm (Racing)

Option Racing

**Two Clamping Cylinders**  
For a powerful clamping also for the big tires.

**Universal shovel**  
The special form of the bead breaker shovel requires no protection blade. It is made to fit all rims without scratching.

## Standard Features coming with the machine:

- Oiler (+Water separator Racing)
- Grease pot holder
- Tyre lever
- 10 bar operating pressure limiting device
- CE 3,5 bar inflating pressure limiting device
- Plastic protection package

## Optional Accessories

### Optional Accessories

#### JetBlast

This device helps seat the bead of stubborn sidewalls when inflating. Fully integrated in the machine. Replaces the GT device.

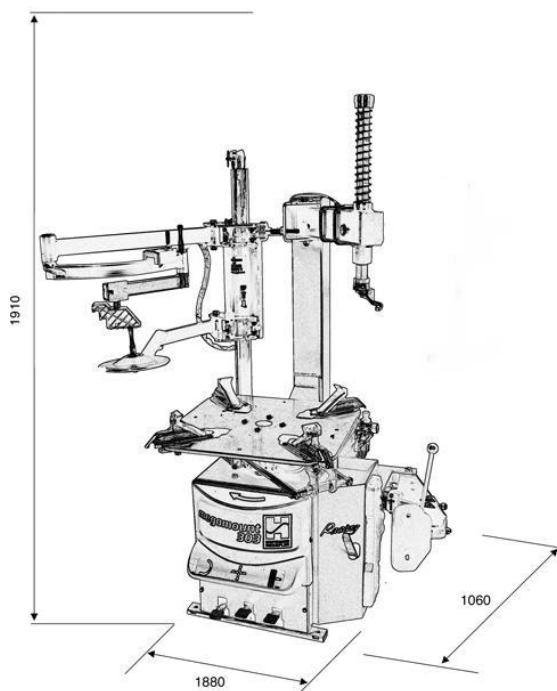

#### Color Options

#### Motorcycle Equipment

The 303 is a fine basic machine to work with motorcycle tyres. There is a lot of motorcycle equipment available like clamp extender, special shovels, mounting heads and more to make this machine fit for a motorcycle garage.
